Hi Tom,  
The RSS Announcer is Great, it Works! Within a few days my Website was listed in the top 10 of MSN RSS Feeds. I also moved up from number 5 on MSN to number 1 for keyword One Day Diet. I've been advertising for one year on the web and starting second year. The RSS Announcer is great. Customer Service-Support has really been great because, I didn't know how to work the soft ware.Tom "theToolman" really helped me get it setup and running efficiently.

Thanks Tom

## **RSS Announcer Is Easy To Use-**

**RSS announcer is so easy to use, that even a child could figure it out.** When we were having the software developed my nine-year-old son did most of the testing.

He had a ball watching all the content we created showing up immediately in the major RSS directories and knowing that he put it there all on his own with this simple to use the software.

If only he knew the value these RSS feeds can bring, we would probably have never been able to get him away from the computer

**“Imagine your Link on 1000s of Websites”**

## **It's Fast-**

**I used to spend hours manually sending my feeds to all of the major directories.**

RSS Announcer submits all of my feeds to the major feed directories automatically with the push of a button and completes all the submissions in minutes rather than hours!

## **It's all been automated for you-**

When you open RSS Announcer's interface you will be prompted to enter in some basic information such as the title and description of your web site, plus the actual link to your RSS feed, the category of which your RSS feed falls under, and a few other small things.

It will then save this information for future use so as you build more and more RSS feeds up, RSS Announcer will remember them for the next time you use the software.

**I absolutely guarantee you will be amazed when you see the amount of time that you can save**, the amount of content, you can spread all over the Internet, and the amount of extra money that content can be bringing in immediately.

**Don't you owe it to yourself to try RSS announcer today?**
